GRAPPLE RAKE

DIGGA

CONSTRUCTION GRADE
MACHINERY ATTACHMENTS

With an aggressive tine design, this grapple attachment will make moving any kind of debris an easy task. At 42" wide & with a 36" grapple opening, the Digga Grapple Rake is efficient in moving anything from logs to concrete. It is suited to mini stand-on loaders and micro skid steer loaders.

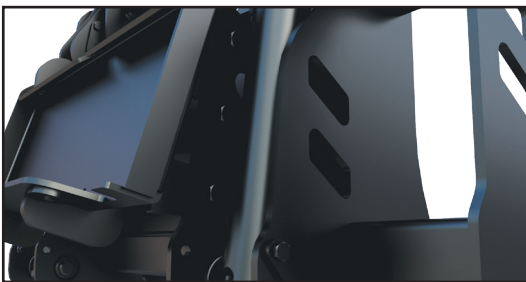

All materials and components are of the quality you'd expect from Digga, plus, it's made right here in the USA, in our facility in Iowa. Digga has been making attachments since 1981, so you can rely on us to only produce an attachment you can depend on. The Digga Grapple Rake is a staple attachment for your landscaping needs.

SPECS

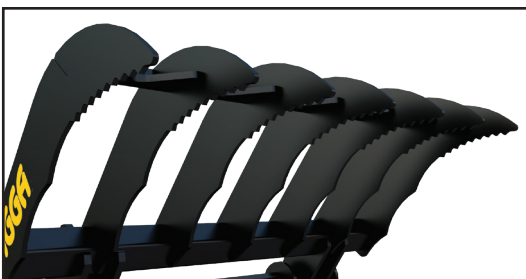

WEIGHT (LBS)	WIDTH (INCHES)	TINE SPACING (INCHES)	GRAPPLE OPENING (INCHES)
350	42	6	36

FEATURES

CYLINDER & HOSE PROTECTION

Top, bottom and side cylinders protection ensures your investment is guarded.

AGGRESSIVE TINE DESIGN FOR GRIPPING MATERIAL

Handle a wide range of material safely and efficiently with serrated teeth top and bottom. The design also allows the grapple to sit flat on the ground making it easy to store and connect to the mount.

1" GREASEABLE PIVOT PINS & CYLINDERS

Heavy duty greaseable pins and cylinders ensures the longevity of your attachment for years to come.

BOLT ON MOUNT

Use the Grapple Rake on different machines simply by changing the pickup mount. Perfect for rental yards and large businesses with multiple machines.

MULTIPLE TIEDOWN POINTS & PULLING POINTS

Quickly and easily tie down your attachment using a number of dedicated cutouts on the side of the grapple.

Two pulling points allow you to shackle chains to the front of the grapple to pull out posts and stumps.

MADE IN THE USA

Manufactured in our Dyersville Iowa facility with only the highest grade materials and strictest quality control.

DIGGA TRUSTED QUALITY

With 3/8" GR50 lower grapple tines, 5/16" GR50 upper tines and powerful 2" x 6" cylinders, the Digga Grapple Rake is built tough.
